Education is the Key to a Sustainable Future
64 Hour Refrigeration Course

Description: The Bureau of Labor Statistics projects that 65.6% of HVACR service personnel in the industry in the year 2020 will be people not in the industry today. It is fact that the better an operating engineer’s skill, the better his or her chances of securing and maintaining a job. It’s also a fact that in today’s job market that jobs are hard to come by, which places added emphasis on the individual’s proficiency, diversity of skill and grade of licensure. This class provides hands on training of the refrigeration system operation, troubleshooting and maintenance of residential and commercial refrigeration systems, ice machines and air conditioning units and will include at the completion an opportunity to accrue a CFC certificate.
